

# Peter and John Heal a Lame Man Spinner Game

## Items Needed:

Cardstock

Foam board or piece of cardboard or small cardboard box

Thumbtack or brad

Paperclip

## Directions:

Print out the spinner “game board” on a piece of cardstock. Glue it to a thin piece of foam or cardboard.

Attach a large paperclip with a brad or thumbtack to the middle of the spinner. Don't push it in too far or the paperclip won't spin.

You can also attach the game board to a cardboard box if you want something else to push the thumbtack through.

For the smallest children, simply spin the paperclip and call out the action. Children can mimic each activity (walking a few steps, jumping up and down for leaping or raising their arms, and saying “Amen!”). Do this a few times to get in some movement time during your lesson!

For older kids, ask them a question that relates to the lesson or a simple Bible question and once they answer it, they can take a turn at the spinner.
